

Whitehall Group, L.L.C.

Providing Services to Companies in Transition

35+ Years of Experience

Transition Planning Services

Whitehall can provide our entire spectrum of services to corporate and private equity owners with regards to transition planning services.

Whitehall has been working with privately held middle market companies dealing with transition issues longer than most firms. Our successes have been well documented and have provided excellent results.

With 10,000 baby boomers leaving the work force every week, companies are at a crossroad. Decisions have to be made on where the company is going long-term and how they're going to get there. Many of these owners are forced to rethink not only where their business is going but who is going to run and provide the needed financing. Management may not know what to do or how to manage their way through this dilemma. This is how we can help!

Here's How Whitehall Can Help!

Transition Planning Services

The Whitehall Group specializes in assisting Privately Held Middle Market Companies, whether your clients are looking to grow the business, pass it to family or management members, improve operations and profitability, refinance or sell the business.

Board Advisory Services, Solutions

Whitehall brings decades of Board Advisory Services experience to any business situation in incremental steps or in a full-time capacity.

Executive Coaching And Interim Management Support

Whitehall consultants are available to assist company management when needed, whether it is to support current management through external or internal problem situations or to provide guidance and training to a new individual or management team.

Operational Excellence

Whitehall works "hand in hand" with leadership and management to create the strategic direction and corporate environment to successfully deliver the organization's overall goals.

If you have a client experiencing a potential transition situation, give me a call for a "no cost evaluation" to discuss how we can assist in planning and executing a successful transition plan.
